Final Project Narrative/Text Description (300 words max.)

Harajuku Bookscape is a shared library designed to welcome both locals and visitors, offering a unique blend of culture, community, and creativity. Located in the heart of Tokyo's vibrant Harajuku district, the library stands out with its spacious, light-filled design. A large glass roof allows natural sunlight to pour in, creating a warm and inviting atmosphere throughout the day. Wide staircases connect the different levels and double as casual seating areas, encouraging people to relax, read, or engage in conversation.

One of the library's most defining features is its view of a lively shared courtyard. Large windows and open spaces create a seamless visual connection between the interior and the outdoors, allowing visitors to feel part of the broader community. The courtyard

often hosts everyday neighborhood scenes—children playing, people chatting, small performances—that bring energy and life into the library itself.

Beyond its architectural beauty, Harajuku Bookscape is a hub for cultural exchange. Its diverse collection includes both international titles and local works, offering something for readers of all backgrounds. Regular events, workshops, and pop-ups invite people to learn, collaborate, and share ideas. It acts as a community space where stories come alive and connections are made. Whether you're there to explore a new book, attend a creative workshop, or simply enjoy the ambiance, Harajuku Bookscape invites you to slow down and engage with the world around you in a meaningful way.
